RON SIKORSKI

BUSINESS MANAGER

OFFICERS MEETING

On January 2, we held an Officers Meeting to fill the unexpired term of President due to the retirement of Mickey Adams. The Officers voted to move Dan Hawn to fill the office of President, and to fill the office of Financial Secretary with District Representative Shawn Kinsey from District 6 in Las Vegas for the remaining term of Dan Hawn.

We also appointed Nick DiFranco as District Representative in Las Vegas.

I am confident that Shawn and Nick will continue to do a great job for the membership.

GAVIN NEWSOM

Dan Hawn and I attended a reception for the newly elected Governor of California in Sacramento. It was a small affair, mostly a meet and greet. We met some interesting people there.

CALIFORNIA LABOR FEDERATION MEETING

We attended the California Labor Federation Executive Board meeting in Sacramento. We spoke mostly of politics, what the new administration will bring and what the new super-majority in the Senate and Assembly will bring in the next session. I expect things to come from them in the new session.

C.R.C. GRIEVANCE

We had a grievance meeting with California Resources Corp. (C.R.C.) in Bakersfield. We were unable to settle anything, so we referred the matter to arbitration.

This was a subcontract violation and we believe it is a must win.

REAL ESTATE IN RIVERSIDE AND LAS VEGAS

I had a meeting with Washington Capital regarding the Trust Fund building in Riverside. We have a one million square foot building that has been leased to Nordstrom. This building was built 100% union.

We have property at the Golden Triangle in Las Vegas where we will build 12 tilt-ups, creating union jobs and lease property which will create income in the future for the Pension Trust.

EDISON

We had a meeting with Assemblymember Chris Holden regarding Southern California Edison's contracting practices on their construction work. We told him that we will fight any bill that Edison has in the legislature regarding the recent fires if Edison is not willing to change their contracting practices.

UNITED LABOR AGENCY OF NEVADA (ULAN)

United Labor Agency of Nevada has assisted 5,550 people through the basic needs program. Below you will find a snapshot of the funds used during the last quarter when assisting those who were referred to them:

\$ 14,962	food
\$ 73,568	rent
\$ 23,549	utilities
\$ 1,449	diapers/hygiene/household items
\$ 1,518	for Local 12 members

FEBRUARY 2019

BUSINESS MANAGER'S REPORT (CONTINUED)

INTERNATIONAL WINTER MEETINGS

The International Winter Meetings were held in San Diego this January in conjunction with the General Executive Board.

There were some very informative workshops and we heard new procedures for signing up for classes at the new International Training Site in Crosby, Texas. This meeting was well attended by representatives from all over the United States and Canada.

OPERATING ENGINEERS CERTIFICATION PROGRAM (OECF)

The OECF Board meeting was held in Riverside at their headquarters. We would like to remind you that Local 12 is still reimbursing members for certification costs. Make sure you keep your certs up-to-date.

A special thank you to retired Financial Secretary Billy R. Boone for donating his time on this Board as a public member.

NEW AGREEMENT WITH LAS VEGAS PORTABLE AGGREGATE PRODUCERS, LLC

We signed an agreement for a rock plant in Boulder City. Vice President Dave Garbarino negotiated this agreement which turned a non-signatory plant to a union operation with pension, health and welfare, and all the other benefits that other members enjoy. Welcome new members.

SUKUT CONSTRUCTION

Happy Birthday to Sukut Construction. Sukut celebrated 50 years in October, or I should say 50 years young, and is still moving forward.

Sukut has grown to be one of the largest employers of Operating Engineers in Local 12, employing some 275 operators. We hold this relationship dear to our hearts and will work hard to make this partnership work for the next 50 years.

DAN E. HAWN

PRESIDENT

REFINERY SAFETY ORIENTATION CERTIFICATE

Brothers and Sisters, work continues to be strong in all districts as reflected in the hours reported to the Trust Fund. If you are on the Out-of-Work List, you may want to take advantage of one of the training sites to broaden your skill base or get new certifications.

There is an abundance of refinery work that requires a Refinery Safety Orientation Certificate. It's imperative to acquire the certificate so we can fill the orders as they are placed in the halls. The Training Trust continues to offer classes for this certificate. Please check for the schedule. Remember, funding for the Joint Apprenticeship and Journeyman Retraining Trust is part of the fringe benefit package. If you pay for it why would you not use it to be as diverse as possible in your profession?

HOLLYWOOD BURBANK AIRPORT

On a future project note, voters in Burbank passed Measure B on November 8, 2016 by 69% to 31%. Measure B ratified the City Council's agreement with the Burbank-Glendale-Pasadena Airport Authority to build a 14-gate, 355,000 square foot replacement terminal at the Hollywood Burbank Airport. Portions of the existing 232,000 square foot terminal, which was built in 1930, do not meet current seismic design standards nor does the distance (250 feet) from the runway meet the FAA Standards of 750 feet. The project cost, which also includes demolition of the existing terminal once the new terminal is completed, the extension of the existing taxiways and all support infrastructure is estimated to be \$1.24 billion. Construction may begin mid 2019 with completion in 2022. This project will create a lot of jobs for Local 12 members and other building trades members due to the Project Labor Agreement negotiated between the Airport Authority and the Los Angeles/Orange Counties Building and Construction Trades Council.

Always, work safely and attend your district meetings.

Save the Date

**39th Annual
PENSIONERS'
PICNIC**

**Saturday, May 18, 2019
10am - 2pm**

Meadows Picnic Area of Legg Lake in Whittier

CARL L. MENDENHALL

TREASURER

At the General Executive Board Winter Meeting we had a presentation on addiction, suicide prevention and behavioral health. These subjects were a real eye opener for me. Mental illness is the first leading cause of disability in the United States. Every four minutes someone dies of an overdose and every eleven minutes someone commits suicide. Sixty-two percent of missed work days can be attributed to behavioral health conditions. The construction industry has four times the national average of suicide rates and has the second highest rate of substance abuse amongst all industries.

The International Union of Operating Engineers is putting together a program to help. This will be a four day peer support training course at the I.U.O.E. Training Center in Crosby, Texas. This training course will take place from April 29, 2019 through May 2, 2019. For more information e-mail: Adwyer@local478.org. The program will bring awareness about lifestyle issues focusing on the path to prevention, recovery and support. The peer training program will consist of: safety, role of peers in the workplace, ethics, confidentiality and effective communication. Also, union history

of assistance programs, stress management, trauma, addiction, behavioral health issues, suicide prevention, veterans issues, family impact, bullying at jobsite/home/cyber. In the workplace recognize, react, and recommend treatment options, sexual assault and harassment between I.U.O.E. and employers. As you can see, that is a very extensive training for our members.

To estimate, we have 22 veterans per day committing suicide in this country, which is a deeply troubling number of 8,030 per year. In 2018, nine suicides were reported to the burial fund, nine deaths were reported with a pending diagnosis and seventeen deaths had no certificate of death on file.

We have a problem with substance abuse even with our drug testing policy in place. Participating hospitals and facilities are available for mental health network, drug and alcohol recovery and all is covered by our Health and Welfare Fund, so please take advantage of them. The national suicide lifeline number is 800-273-8255.

I would like to thank our General President, James T. Callahan for his leadership on these issues.

(L-R) Cory Breazile, Jim Breazile and Jeff Crocker working for North American Recycling & Crushing LLC.

INTERNATIONAL UNION OF OPERATING ENGINEERS LOCAL 12

Condon-Johnson on the West Mission Bay Bridge (operator) Ken Leipper and (oiler) Jeff Morton.

DN Tanks at the Carlsbad Energy Center building storage tanks.

Kevin Fleck working for Flex Rock Breaking, Inc.

Jeff Quesenberry working for Granite.

A Road Widener belonging to Calmex Engineering on Highway 78.

Tipco Engineering, Inc. operating a LoDrill on the North Coast Corridor.

LDC 350/400 Dynamic Compactor at Camp Pendleton for Lampson International, LLC.

ON THE JOB

DISTRICT

DUANE E. FRIEL
DISTRICT 4
REPRESENTATIVE

Congratulations to Mr. Dan E. Hawn, former San Diego District Representative, on his appointment to replace Mr. Mickey J. Adams as President of Local 12. Congratulations, as well, to Mr. Shawn Kinsey, Las Vegas District Representative, for his appointment to Financial Secretary. Each of these new officers is an excellent choice to fill their respective position and the membership of Local 12 will benefit from the individual talent these gentlemen possess.

San Diego began 2019 with rainy weather that slowed some projects down and temporarily closed other jobsites. The Out-of-Work List had a slight rise during that period but for the most part has remained steady through January, ending with 124 members on the 'A' list, 46 on the 'B' list and 4 on the Apprentice list. Remember to check in with the dispatch hall a minimum of 30 days after you get on the Out-of-Work List and every 30 days thereafter until you are dispatched. If you miss the timeline your name will be removed from the Out-of-Work List.

District 4 partnered with the San Diego & Imperial County Building Trades, Unions United and United Way of San Diego County to provide turkey dinners and toys to over 650 working families in need this holiday season. The Business Representatives and Apprenticeship Coordinator met with other Local Union Trades at SDCCU Stadium (formerly Qualcomm Stadium) to distribute the holiday cheer. This is an endeavor to help our Brother & Sister Union members that have not been working steady or have had other setbacks enjoy the season. It was a success and was well received.

SDUSD-PSA continues to provide work for the operating engineers with 25 new projects scheduled to begin this Spring. Projects that have already begun and are ongoing through the school PSA are La Jolla H.S., a whole site modernization estimated at \$42 million and Mission Bay H.S. whole site modernization at \$24 million. These contracts cover a lot of different types of small projects. Then there are the Joint Use Field contracts that are being constructed throughout the district, some ongoing and some yet to be determined. These contracts consist of grading, fence construction and all facilities for sports and recreational use areas. New schools are also being built such as Wilson M.S., which is brand new from the ground up, costing \$116 million and Logan K-8, also brand new

for a mere \$60 million. Other projects in the mix are the addition of classrooms at Balboa E.S. for \$16 million and Serra H.S. for \$23 million, a new theatre at Hoover H.S. for \$47 million and a Career Tech Center at Mira Mesa H.S. for \$38 million.

Work in other areas of San Diego is keeping Local 12 members busy as the new year starts and it appears that the work picture will remain steady. A few of the jobs scheduled to begin in 2019 are Granite Construction installing a new fuel transmission pipeline for the hydrant fueling infrastructure at Lindbergh Field, Flatiron West will be doing a bridge widening on the 805 freeway and an interesting dredge project on the 32nd Naval Base. This project is maintenance dredging between the piers, as the ships move out Manson Construction Company will move in with a clamshell and remove all the silt and debris that it has collected. At times this can include ordinance that has come off the naval ships. Kiewit is starting a project on the MWD No. 1 Aqueduct pipeline from Pala to Escondido. This will consist of rehabilitation, reinforcement and maintenance of the existing water line. Manholes and air release risers will be part of the process also. CCL is building a Brine Line between Harmony Grove and Escondido. This is a pipeline system to transfer salt extracted from a water purification process to a sewage disposal site.

MCTC has completed the columns and structures for the railroad tracks from University Town Center to Gilman Drive. This job is more than halfway done, however there's still a lot of work to be finished. FSSW on the North County Corridor Project are working along the N/B I-5 freeway while paving from Birmingham to Manchester. Cal Mex Engineering is laying the asphalt along the shoulder of this same stretch of freeway. Ross Island is almost completed with their portion of the dredge work on the San Elijo Lagoon and Dixon Marine is getting started on the next phase. The equipment being utilized, other than the dredge, are aquatec excavators. These machines can get into the areas where there's not enough water to draft a dredge.

Several SB-1 projects are coming up to bid and several others are in the planning stage. Operating Engineers are fortunate to have these in the works because a big portion of these jobs require a trained and skilled workforce and Brothers and Sisters, that is you. Work safe, play safe and be safe. See you at the monthly district membership meeting held the second Tuesday of each month (except June and December) at 4811 Viewridge Avenue, San Diego 92123.

REPORTS

Dwight E. "Shorty" Martin (middle) shown here with his grandson, David Morris Jr. (left) and District Representative Duane E. Friel (right).

Dwight E. "Shorty" Martin just celebrated his 99th birthday and 79 years since joining Local 12C in 1940. In 1942 he transferred into Local 12 as a member, during this time he served in the U.S. Army until discharged in 1945, immediately returning to the work he loved. He lives in Lemon Grove, California with his family close by. Shorty said he spent most of his career working in the San Diego area running shovels and dragline equipment. For 11 years he served on the Advisory Board and was a Conductor at meetings. Shorty worked at the Pacific Naval Advance Bases, Jack Murphy Stadium (Qualcomm/SDCCU Stadium) and the Veterans Hospital in San Diego. Shorty has 4 children, 20 grandchildren, 11 great-grandchildren, 22 great-great-grandchildren and 11 great-great-great-grandchildren. Shorty says "Thanks to the Operating Engineers Union I have had a lot of good things in my life and thanks to the Union, I have a pension."

MIKE CAMPION
ASST. DISTRICT REPRESENTATIVE
TERRY WILLIAMS
BUSINESS REPRESENTATIVE

SURVEY CORNER

Brothers and Sisters, Happy New Year and best wishes for you in 2019. We hope you all had a safe and relaxing time with your families during the holidays.

Typically, this time of year, work does slow down due to the holidays and the start of the new year, which also brings inclement weather. However, the work picture is still holding strong in all areas of our work.

We had some great news for the members of IUOE Local No. 12 after the November 6th election. Proposition No. 6 failed and we got a labor friendly governor in the state of California. This ensures gas tax money will go to the repair of roads and bridges throughout California at the tune of about \$5 billion per year, earmarked for that purpose only. This will keep operating engineers busy working and give California better roads and bridges for many years to come. It also does not hurt having a governor who is labor friendly and sees the value of organized labor unions who work hard to build California's infrastructure and keep it up to date.

Thank you to everyone who got out to the polls to vote, especially those who got involved at phone banks, precinct walking, and putting out lawn signs to get a NO vote on Proposition No. 6. This might have been one of our greatest victories in recent years of labor.

Those of you who attended the General Membership meeting in December heard from Business Manager Ronald Sikorski, that the annuity has been in place since July 2018 and is doing well. The one dollar that was allocated for the annuity at the last General Membership meeting in June 2018 adds up fast. Many of you probably received a statement in the mail as to the value of it. The addition of the annuity should enhance your retirement handsomely when it comes time to leave Local 12, especially for the younger members who are just starting out and have many years left to work.

SOUTHERN CALIFORNIA SURVEYORS JOINT APPRENTICESHIP COMMITTEE

RAYMOND DIAZ
ADMINISTRATOR

The Surveyors JAC would like to announce a new and improved website, so please visit. The JAC is asking for pictures of our membership on the jobsite. Let us see you at work and the JAC will post the best pictures. If your picture is selected to be posted, the JAC will send you a t-shirt. Please send your photos to www.office@scsurveyjac.org

Four Scholarships Available for the 2019 Competition

Larry Davison, Recording-Corresponding Secretary

It's Scholarship Time! There will be four scholarships awarded in 2019. Graduating seniors who are sons, daughters, legal wards, grandsons, granddaughters and stepchildren of dues-paying Local 12 members for five consecutive years prior to filing for an application and currently in good standing, are eligible to compete for the four scholarships in the amount of \$4,000 each.

The scholarships will be awarded to:

1. Son or Male Legal Ward
2. Daughter or Female Legal Ward
3. Grandson or Stepson
4. Granddaughter or Stepdaughter

All matters pertaining to the winners will be decided by the Scholarship Committee. The scholarships awarded will be based on a range of criteria, including student grade point average, school activities/leadership, community involvement, expression of life goals and knowledge of how the American Labor Movement has contributed to the growth of living standards for both union and non-union workers, as well as to their safety on the job.

Additional criteria include neatness, typing and

how applicants selected their choice of college. The decision of the Scholarship Committee will be final.

Anyone interested in the Scholarship Competition should complete the Request for Scholarship Application coupon and have it postmarked no later than March 9, 2019.

Requests received with the postmark after this date will not be accepted. Mail the completed coupon to: Larry Davison, Recording-Corresponding Secretary, International Union of Operating Engineers, Local 12, P.O. Box 7109, Pasadena, CA 91109-7209.

For more information regarding the Scholarship Competition, please call (626) 792-8900 ext. 127
